Subject: Mental Health and Addiciton benefits

I believe health insurance plans for both group and individual policies should provide equity between medical/surgical benefits and mental health and addiction benefits. I also believe all medical insurance benefits should be mandated to include medical/surgical, mental health and addiction benefits because all people should be equally protected for all illnesses whether physical or psychological. When physical or mental conditions go untreated it affects the individual just as seriously. Treating both the body and the mind allows individuals to maintain their health with greater chance of being a healthy productive part of society.

Sincerely,

Patty Roe

We found the real 'Hotel California' and the 'Seinfeld' diner. What will you find? [Explore WhereltsAt.com](#).
